3	Establishment of internal Quality Assurance Cell.	21/06/2014					
4	Annual Quality Assurance report.	Enclosed Part-A, Part-B, Part-C of AQAR of 2016-17					

# The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (*Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013*)

Yes \_

Yes

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

Examination reforms initiated by Gulbarga University, Gulbarga are adopted and followed by institution.

- 1. Coding and de-coding.
- 2. Photo copy of answer sheet.
- 3. 3. Re- totalling & Revaluation facilities provided

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

6.11 Activities and support from the Alumni Association

Alumni association meetings are held by the institution twice in a year to collect their suggestion and implemented .

6.12 Activities and support from the Parent – Teacher Association

Parent Association meeting conducted twice in a year and discuss about the academic mater, teachers, students, problems suggestion are taken from the parent and implement the suggestion to improve the standard of the students.

6.13 Development programmes for support staff

By sending them to workshops, seminars, conferences, refresher courses, orientation courses apart from this. Teaching staff are trained for the use of computers.

6.14 Initiatives taken by the institution to make the campus eco-friendly

The campus is full of greenery by maintaining the garden and for plantation made waste water management under taken.

The rain water harvesting, Biological waste management are under taken.

# Criterion – VII

# 7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the Functioning of the institution. Give details.

Soil & water testing facilities provide.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

Plan of action prepared at the beginning of the academic year according to calendar of events of the University & same will be implemented to complete the curriculum within the stipulated period.

7.3 Give two Best Practices of the institution (please see the format in the NAAC Self-study Manuals)

-Awareness about disadvantages of use polythene bags.

\*Provide the details in annexure (annexure need to be numbered as I, ii,iii) Enclosed.

7.4 Contribution to environmental awareness / protection

Conducted Environmental study tours & Awareness about Conservation of biodiversity ,pollution, Global Warming, Importance of natural resources. Our NSS Students cleaned Gadwanti Village

7.5 Whether environmental audit was conducted?

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

Arrangement of guest lectures, audio-visual educational aids (LCD Projectors), we have unique Scheme of book presentation to the library by student's staff members, and well wishers.

#### 8. Plans of institution for next year

Details of the plan of the institution for the next year: **Extension courses/New Subjects**. We have planned to start New PG Courses as per the students requirements.

- 1. Hostel: Proposals are submitted to UGC.
  - 1. Women's Hostel Proposal Submitted on 23.07.2014
  - 2. Sport Hostel Proposal submitted on 27.08.2014.
  - 3. Seminars/Workshop: we have planned to arrange seminar /work shop in

different subjects under UGC Scheme and by the college.

#### 4. Academic:

#### a. Daily Teaching diary and monitoring.

Daily Teaching diary will be provided to each staff member. periodic monitoring will be done.

- b. Almanac: Almanac will be prepared and followed throughout the year
- c. **Guest Lecturers.** Guest Lecturers will be arranged as and when it requires.
- d. **Educational Tours**: Educational tours will be organized to various research institution, historical place, Ecological habitat.
- e. Cultural Activities: Cultural activities will be conducted regularly.
- f. **Internal Exam** and Annual Examinations are conducted per the university time table
- g. **Classes for competitive examination**: we have planned to continue classes for various competitive examinations.

# 4. <u>BEST PRACTICE:</u>

# **1.** Title of the practice:

Awareness about disadvantages of polythene bags.

# 2. Goal:

To avoid environmental pollution:

The chemicals in polythene imbalance the survival of flora and fauna of the aquatic and terrestrial ecosystem. It is non-biodegradable and if dumped in the soil causes soil pollution, harm to the plant life. As the toxic substances of polythene get blocked among the soil particles. It is harmful for animals if swallowed. It solidifies inside the gastro intestinal tract which ultimately becomes lethal to the animal.

If polythene is burnt in open air hydrogen cyanide is released which is carcinogenic. It also causes air pollution and health hazardous. In most households polythene bags are used to preserve food items. It has been found out, the olourful polythene bag contains Led and Cadmium which is toxic and cause side effects to human health.

# 3. The Context:

In the present scenario, most households' polythene bags are used to carry and preserve food items and other essential substances. After using, they thrown out on the roads, it blocks the drains causing problems in the water flow of the pipes. The pipe blockages wood, cause flooding and free flow of drainage water is disturbed to society. It cause lot of Environmental damage. Single plastic bags can remain upto 1000 years, to decay completely. This makes the polythene bags to stay in Environments longer, intern leading to great coverage on the natural landscape. In other words, the more plastic polythene bags you use the greater the chances of environmental damages.

Not only animals, infants and young children's have also been damaged. Polythene bags are thin and airtight as well, children often end up blocking their mouths and nostrils. In case they are not being monitored by an adult, this leads to suffocation and in some case even death. Polythene bags are casing great problems in drainage and sewage reclamations in towns and cities. Polythene bags are non-degradable chemicals which will cause great problem to soil structure as they cement the air pores present in the soils and affect percolation of water which will cause water flooding after rain fall.

# 4. The Practice:

We perform different activities under the awareness committee on use of polythene bags. The committee is constituted as follows:

Dr. S.S.Mathpathy	Chairman.
Sri. S.S.Dharmareedy	Convener.
Sri. C.N.Biradar	Member.
Sri. D.K. Biradar	Member.
Sri.P.C.Dhoni	Member.
Sri.A.P.Kote	Member.

- Our activities are to survey the Waste polythene bags dumped by the citizens of Humnabad in places like municipal dustbins, nearby bus stand, vegetable markets, hospitals and market areas.
- Discussing regarding the effects of polythene garbage on local population of human and animals.
- Creating awareness among our students and staff members regarding the hazardous affects of polythene bags on health of population.
- Creating awareness among the common peoples along with students and staff members.
- ✤ Awareness programme:

The awareness committee is taking necessary steps by massive campaign in the town and nearby colonies. The committee is taking help from our students and staff members in the awareness campaign. The committee along with its volunteers is arranging no. of. Rallies in the town and nearby towns. During the rally the polythene bag sellers and stake holders in the commercial areas are made aware about the hazardous effects of polythene on local population of human and animals.

They are also made aware about the substitute materials like paper bags, cloth bags etc.

Which are bio-degradable? The people are responding greatly towards our awareness campaign. We also noticed a great reduction in the use of polythene bags in our town.

The arrangement of such awareness programmes in future will reduce the total use of polythene bags. We regard this as our small social services to the nation.

#### 5. Evidence Of Success:

The awareness committee on use of polythene bags has created awareness among our students and staff members and then arranged campaign through rallies in the local town and nearby small towns. The campaign of awareness has yielded fruitful results. The success rate of awareness can be summarized as follows.

• First success we have noticed is our students and staff members have totally abolished the use of polythene bags they are using house made cloth bags when ever going for purchasing in markets.

• Our committee has successfully addressed the mall effect of polythene bags among the common peoples and commercial sellers. Before initiation to our campaign, we have surveyed. The polythene garbage in the town and nearby small towns. After several rallies we have noticed a tremendous reduction in the polythene garbage. Ours is a continuous process, in future we will see further reduction in polythene garbage. This clearly shows that our effort of creating awareness is yielding a fruitful result.

• Future prospects: In future we have plans of creating awareness among the peoples of different villages in the Humnabad taluka. In fact we hope that we will succeed in that also.

In fact the awareness of such burning social problems will benefit our country. Such efforts can lead to build a clean India.

# 6. Problems Encountered And Resources Required:

## **Problems encountered:**

The use of plastic and polythene bags has become customary since 1980's. The people have become accustomed to plastic and polythene. Hence it is also nightly said that it is a plastic era. The people have become habituated of going to markets with bare hands and returning with polythene carry bags field with purchase items. The shop keeper also supplies the carry bags without any extra costs. So it was very difficult to address to people to de-habituate the use of polythene bags. When they were accused not to use carry bags and go for substitutes like paper bags (or) cloth bags, the first question thus raised was regarding the availability and costs of these substitute products. They said when they get polythene bags for free why they should pay extra cost for others. The second problem is regarding the availability of paper bags or cloth bags? That too at low cost. It was very difficult to convince them. But we suggested bringing home made cloth bags switched from old cloths. This bag can be reused again and again.

Resources required- The resources required for substitute to polythene bags are low cost, strong papers capable of holding weight. The Govt. should provide aid to paper mills in producing such papers and should be available to the people at low cost, low cost cotton cloth should made available for making bags. Then only people can be dehabituated from the use of polythene bags.

# 7. Notes (optional).

# Any other information that may be relevant and important to the reader for adopting/ implementing the best practice in their institution.

## Samajika Seva/ Social Responsibility:

The institution is in the name of Lord Veerabhadreshwar. Veerabhadreshwar is a loyal servant of Lord Shiva. The town Humnabad is famous for its ancient Lord Veerabhadreshwar temple. The town is also famous for Veerabhdreshwar Jathra which will be held every year from 25<sup>th</sup> January to 27<sup>th</sup> January. On the Jathra event likes of devotees will flow from state of Maharashtra, Telangana and Karnataka. It will be very difficult for the machineries to control the public on these events. Our institution provide helping hands to Govt. on this event. The students, staff members and even the parents also provide their helping hands on the event. All of them involves themselves in various social events of the Jathra such as controlling the public traffic at temple, maintaining discipline etc.

So our institutions show social responsibility in involving themselves in such a big event. The students and teachers feel proud to participate in such a event.
